

PRIVACY-AS-A-SERVICE

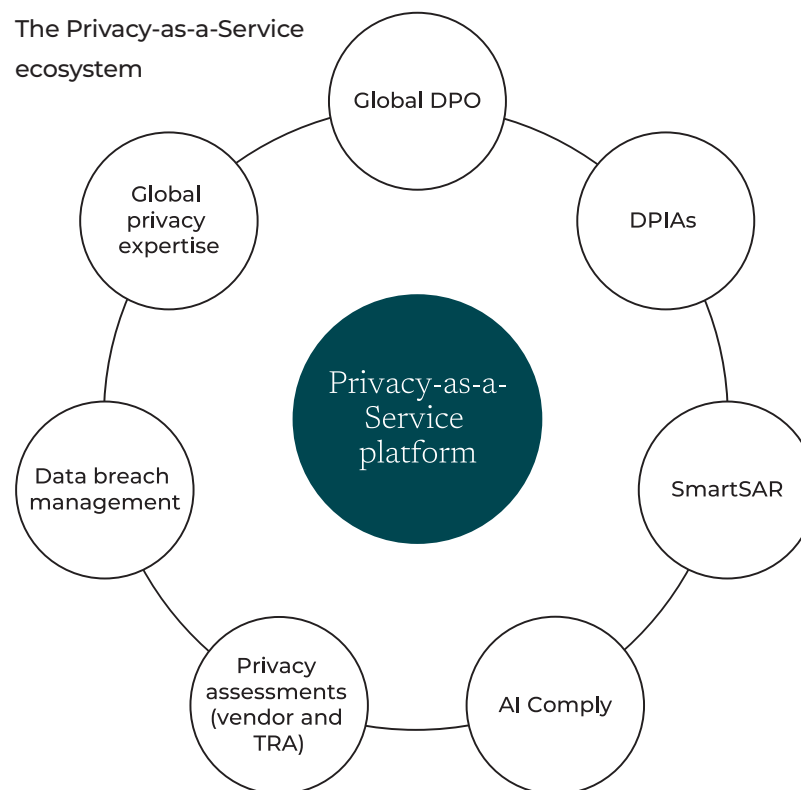

Best-in-class advice, supported by
best-in-class technology

Bringing your privacy ecosystem to life.

Shoosmiths' Privacy-as-a-Service offering combines specialist advisory services, managed privacy support and enabling technology through a connected ecosystem designed to help organisations manage privacy with confidence.

Clients can access individual solutions or build a fully integrated privacy operating model, supported through a single accountable relationship.

The Privacy-as-a-Service
ecosystem

Why Shoosmiths Privacy-as-a-Service?

One accountable relationship

A coordinated privacy ecosystem delivered through a single trusted partner.

Advisory led

Specialist privacy expertise supporting practical delivery and governance.

Technology enabled

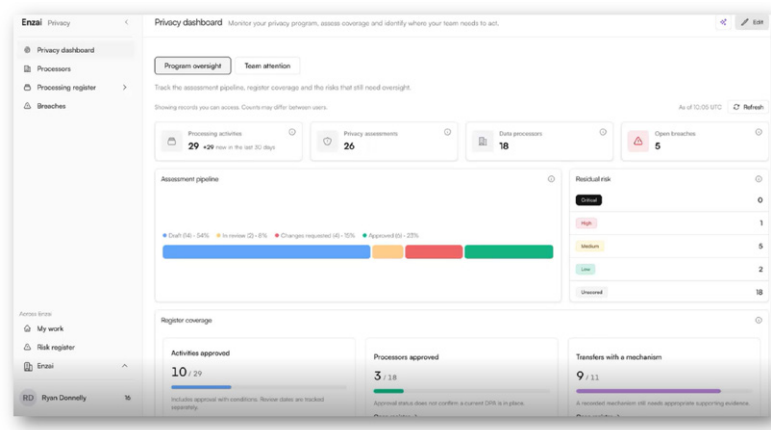

Best-in-class technology supporting privacy and AI governance outcomes.

Flexible and scalable

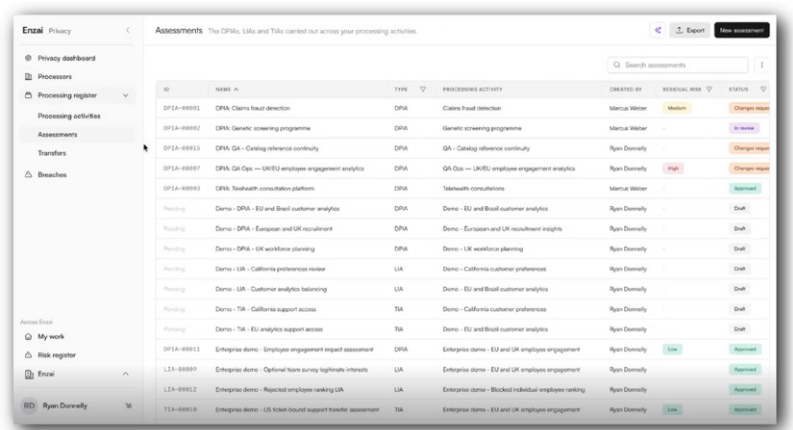

Access individual services or build an integrated privacy operating model.

Privacy platform

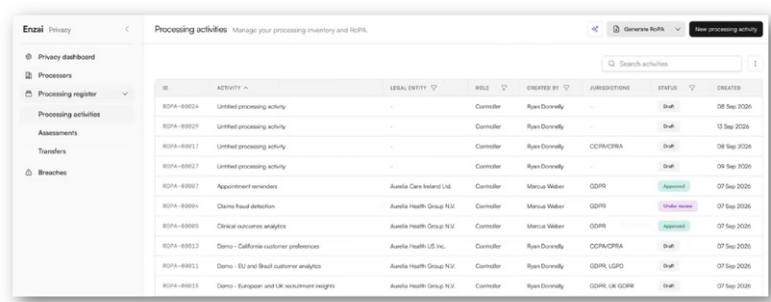

The Privacy Platform underpins our Privacy-as-a-Service offering, providing visibility, workflow management and governance tooling through a single environment.

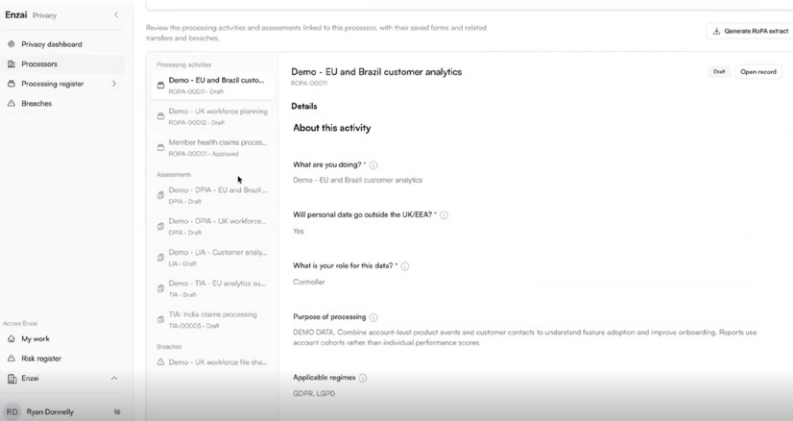

Privacy dashboard: Configurable dashboards providing visibility across privacy activities, risks and programme priorities.

Assessments: Structured assessment workflows designed to support consistent privacy governance activities.

Vendor management: Manage vendor and third-party inventories through a structured workflow aligned to privacy programme requirements.

Privacy records: Centralised record management supporting ongoing maintenance and oversight of privacy information.
